GitHub: github.com/raghavi-durai

EDUCATION

St. Joseph's Institute of Technology

CGPA: 9.061/10

Bachelor of Technology

Artificial Intelligence & Data Science

2025 – 2029

TECHNICAL SKILLS

Programming Language: Python

Web Technologies: HTML, CSS

Tools: IDLE (Python), Notepad, Microsoft PowerPoint, VS Code

Platforms: GitHub, LinkedIn

EXPERIENCE

Intern – ELIQ Networks Pvt. Ltd., Tirunelveli

June 2026

- Completed a 15-day internship on Linux Server Management & Introduction to the Web Hosting Industry.
- Learned basic Linux commands and file management.
- Gained a basic understanding of web hosting and server concepts.

PROJECTS

AI Deepfake Detection

- Developed an AI-based deepfake detection system using machine learning techniques.
- Performed data preprocessing and model evaluation to improve detection accuracy.
- Built a system to identify real and manipulated media.
- Applied image preprocessing techniques to improve model performance.
- Tested the model using sample datasets and analyzed the prediction results.

SmartRoute Gateway

- Developed an AI-powered SmartRoute Gateway to intelligently route user queries.
- Implemented intent classification and complexity prediction for efficient AI model selection.
- Collaborated with a team to design an optimized and cost-effective routing solution.
- Improved response efficiency by selecting suitable AI models based on user requests.
- Contributed to system design, testing, and presentation of the project.

CERTIFICATIONS

- Python for Data Science – NPTEL
- HTML & CSS – Infosys Springboard
